SKILLS

Programming languages

Javascript, Typescript, HTML5, CSS3, SCSS

Frameworks

- React.js, Next.js, React Native
- State Management: Redux, React Context API, React Hook Form, Zustand
- Styling: Tailwind CSS, Bootstrap, Material-UI, PrimeReact, CSS Modules
- UI Components: React Icons, React Helmet, React-Slick
- Animations: Framer Motion, React-Particles, React Type Animation

Web Development

Responsive Design: CSS Grid, Flexbox, Responsive Web Design (RWD), PWA

APIs

RESTful APIs, Axios, React-Query, GraphQL

Performance Optimization

Code Splitting, Lazy Loading, Image Optimization

Version Control & Tools

- Version Control: Git, GitHub, GitFlow
- Package Management: NPM, Yarn, Vite
- Build Tools: Webpack, Babel
- Code Quality: ESLint, Prettier

EDUCATION

Bachelor of Software Engineering

LANGUAGES

English Intermediate

WORK EXPERIENCE

Front-end Developer | Nano Pardazan Tarashe | Tehran, Iran (Oct 2023 - Jul 2025)

<https://signcafe.ir/menu>

- Develop and maintain responsive, high-performance web applications using **React.js**, **Redux Toolkit**, and **Next.js**.
- Utilize **Tailwind CSS**, **Material-UI**, and **Styled Components** for building clean, scalable UI components.
- Work closely with design and backend teams to integrate **RESTful APIs** and ensure seamless user experiences.
- Implement **performance optimizations** like **lazy loading**, **code splitting**, and **image optimization** to improve load times and enhance application speed.
- Implement **form validation** using React Hook Form and **Formik** to ensure robust client-side input handling.

Front-end Developer | Plan It | Tehran, Iran (May 2023 - Sep 2023)

- Developed and maintained a web-based platform for textile production and distribution.
- Built the frontend using **React** with **Redux** for state management.
- Integrated backend services via **GraphQL** APIs for efficient data fetching and manipulation.
- Implemented modern, responsive UI components using **Material UI (MUI)**.
- Managed complex forms and validation using **React Hook Form**.
- Collaborated with backend and design teams to deliver scalable and user-friendly features.
- Focused on code quality, reusability, and performance optimization.

PERSONAL PROJECTS

[E-Commerce Shop \(Live\)](#)

- Developed a fully functional e-commerce shop using React.js and Css Module,
- with state management powered by Redux Toolkit.
- Incorporated smooth animations with Framer Motion to enhance user experience and interactivity.
- Implemented responsive design with RWD principles, ensuring
- Designed a responsive, minimalistic layout optimized for both desktop and mobile screens.

Personal Project: Class Management System (In Progress)

- Developed a class management system using Next.js (SSR) and TypeScript for enhanced code quality.
- Integrated Supabase for backend data management and user authentication.
- Utilized React and @tanstack/react-query for efficient state management.
- Implemented react-hook-form for streamlined form handling and validation.
- Styled with Tailwind CSS for a modern, responsive design and used react-hot-toast for user notifications.
